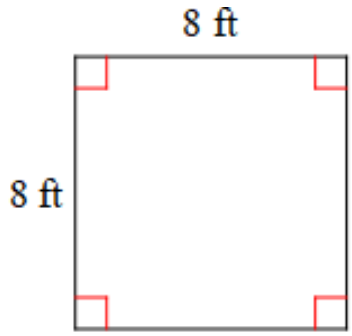
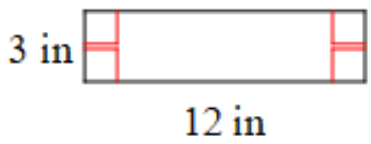
Part 3: Geometry

Calculators are allowed in this section

1 Area of Rectangles

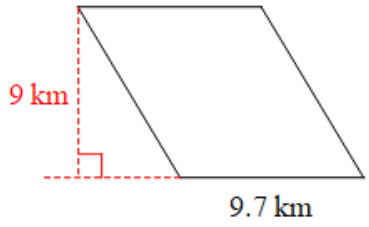
Calculate the area. If necessary, round to the nearest tenth

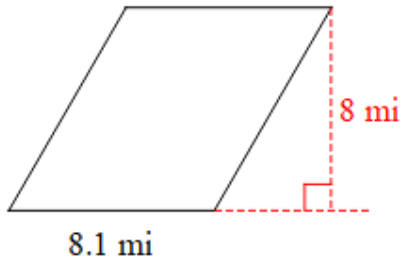




2 Area of Parallelograms

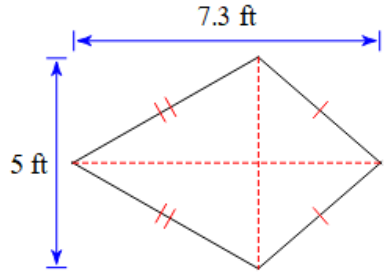
Calculate the area. If necessary, round to the nearest tenth

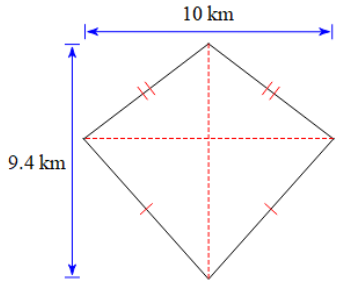




3 Area of Kites

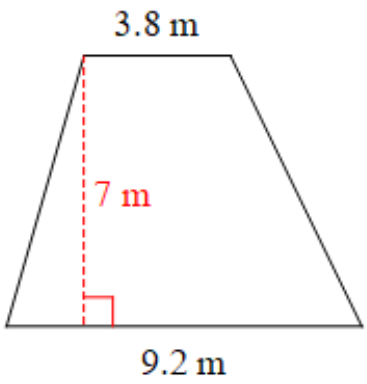
Calculate the area. If necessary, round to the nearest tenth

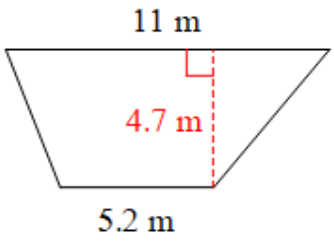




4 Area of Trapezoids

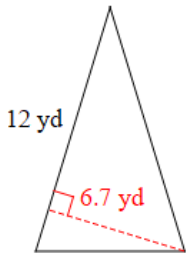
Calculate the area. If necessary, round to the nearest tenth

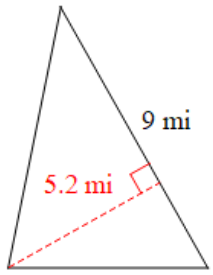


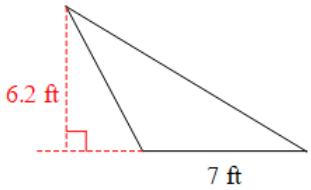


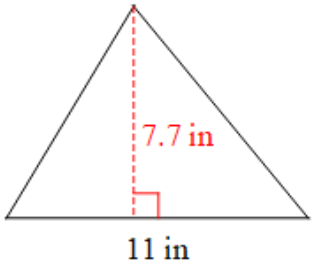
5 Area of Triangles

Calculate the area. If necessary, round to the nearest tenth



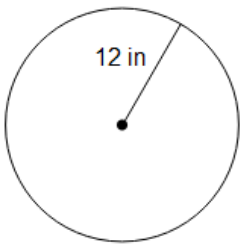


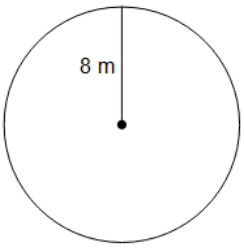


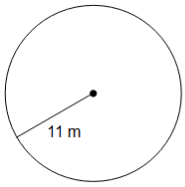


6 Area of Circles

Calculate the area. Leave π in your answer or round to the nearest tenth





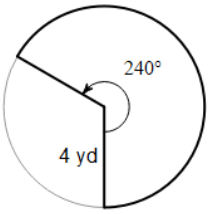


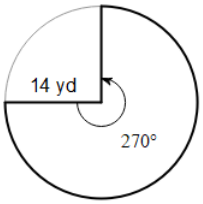
7 Circumference

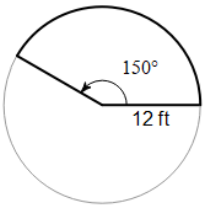
Calculate the circumference. Leave π in your answer or round to the nearest tenth

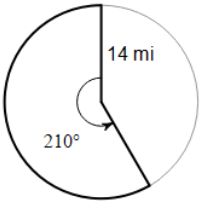
8 Area of Sectors

Calculate the area. Leave π in your answer or round to the nearest tenth



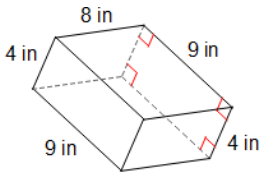


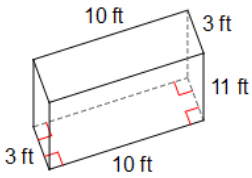




9 Volume of Rectangular Prisms

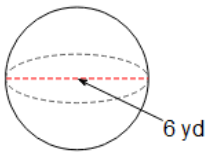
Calculate the volume. If necessary, round to the nearest tenth

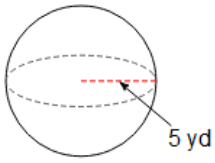




10 Volume of Spheres

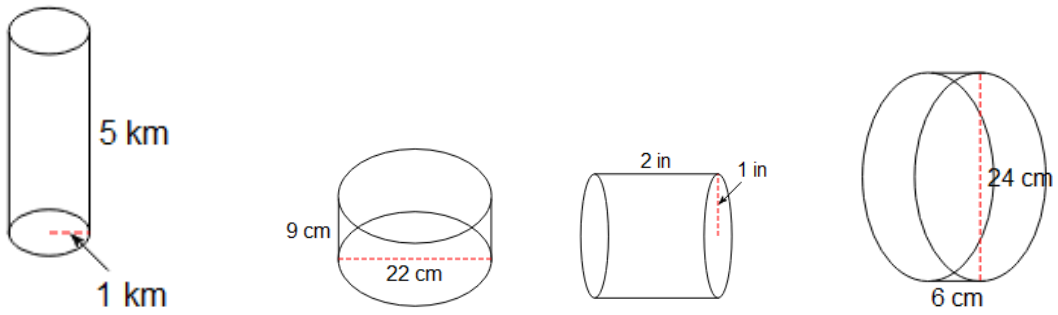
Calculate the volume. Leave π in your answer or round to the nearest tenth





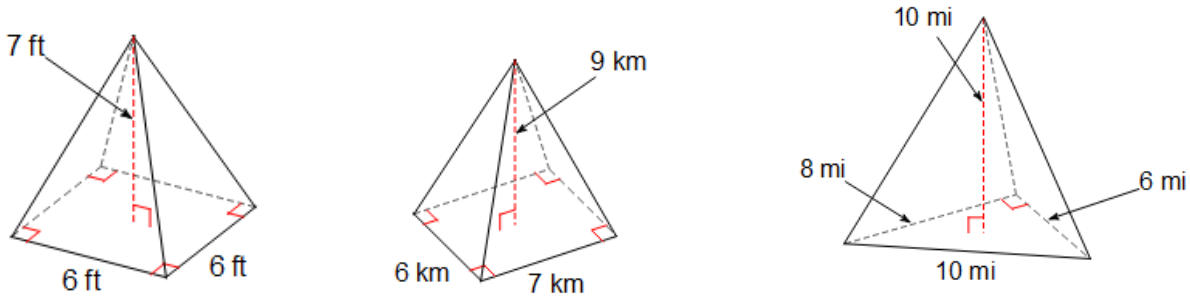
11 Volume of Cylinders

Calculate the volume. Leave π in your answer or round to the nearest tenth



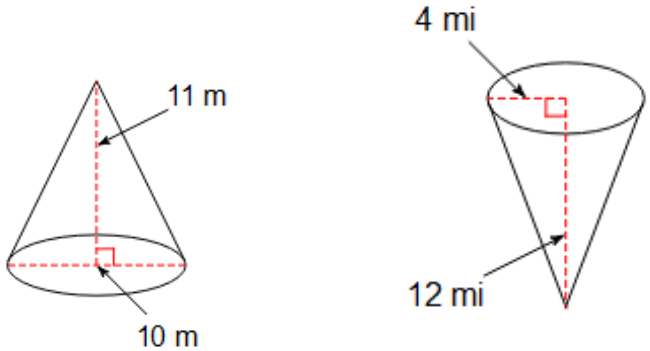
12 Volume of Pyramids

Calculate the volume. If necessary, round to the nearest tenth



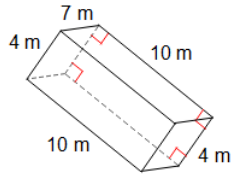
13 Volume of Cones

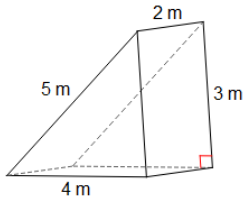
Calculate the volume. If necessary, round to the nearest tenth

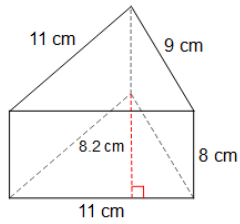


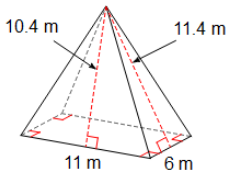
14 Surface Area of Solids

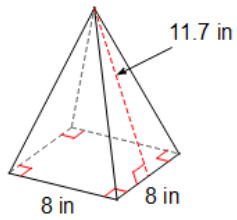
Calculate the surface area. If necessary, round to the nearest tenth

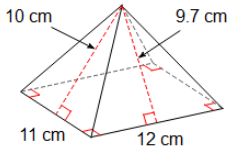


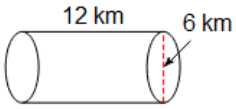


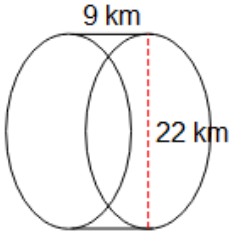






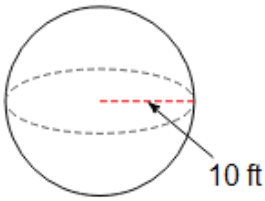


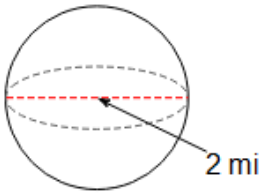




15 Surface Area of Spheres

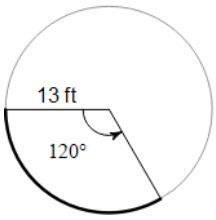
Calculate the surface area. If necessary, round to the nearest tenth

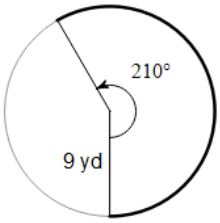


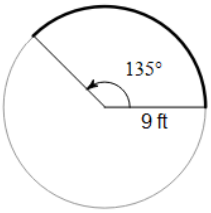


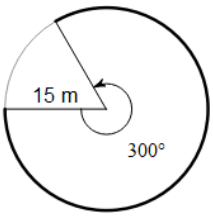
16 Arc Length

Find the length of each arc. Leave π in your answer or round to the nearest tenth



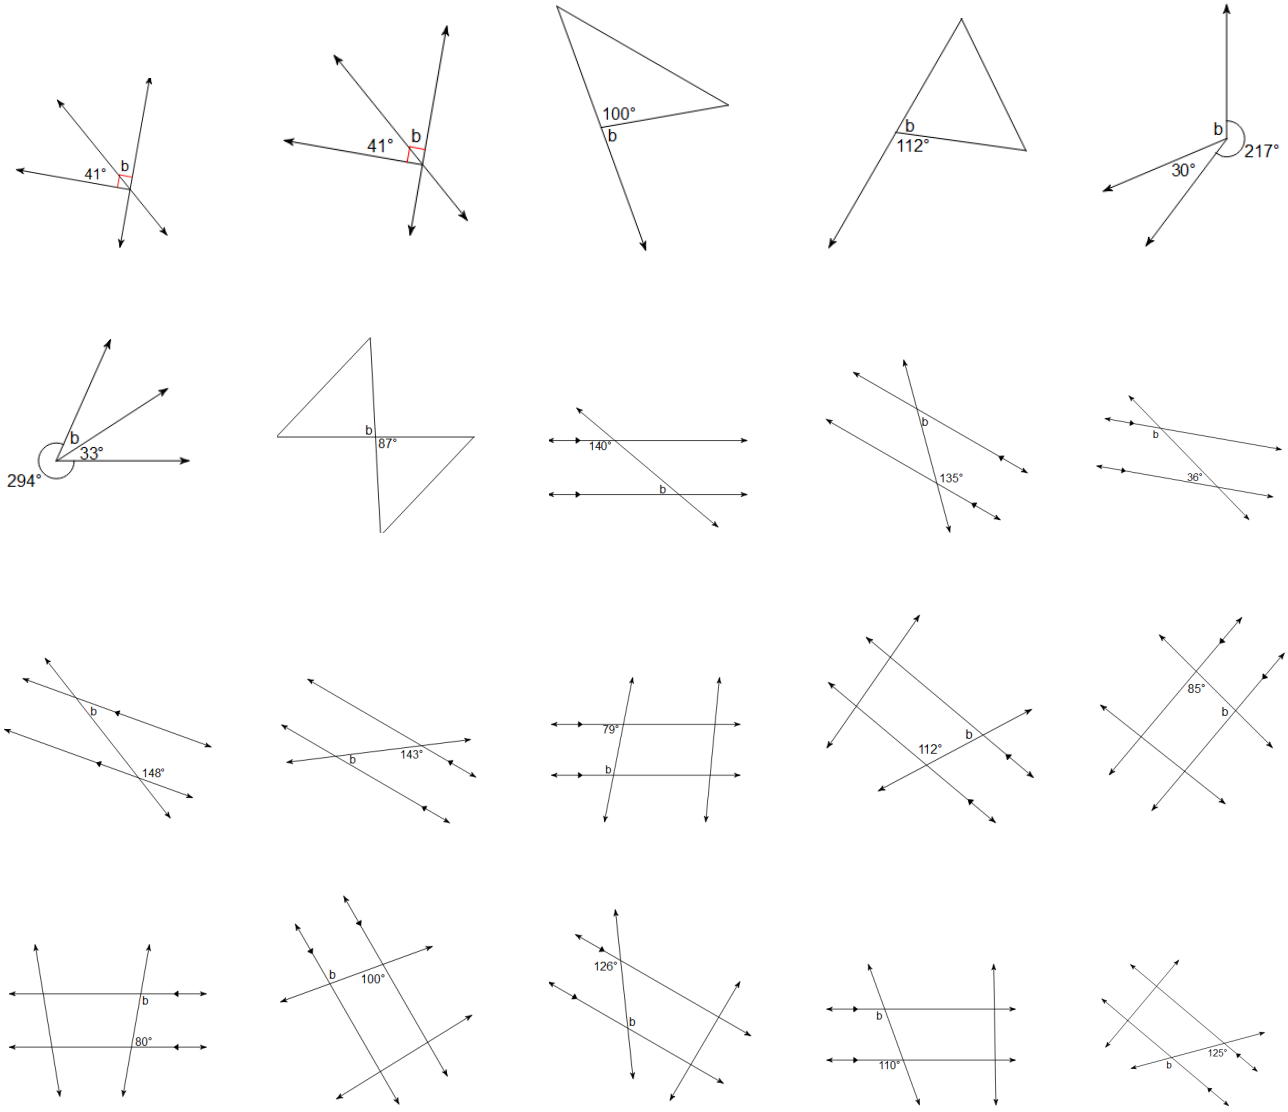






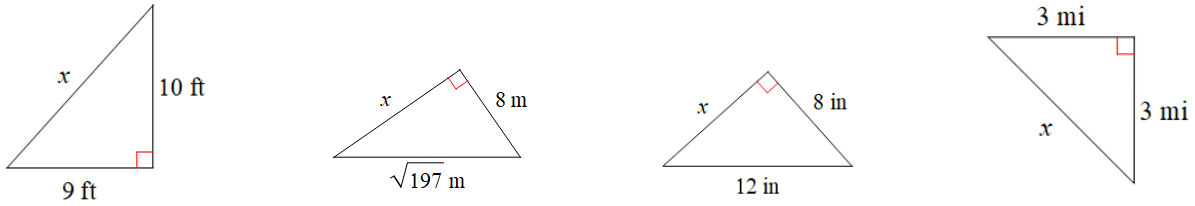
17 Angle Relationships

Calculate the measure of angle b



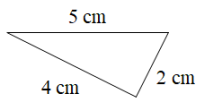
18 Pythagorean Thereom

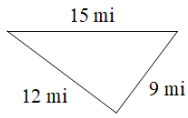
Find the missing side length. Leave radicals in answer (simplify if you can)

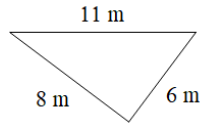


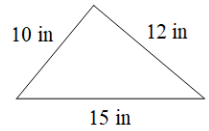
19 Converse Pythagorean Thereom

State whether the triangle is acute, obtuse, or right





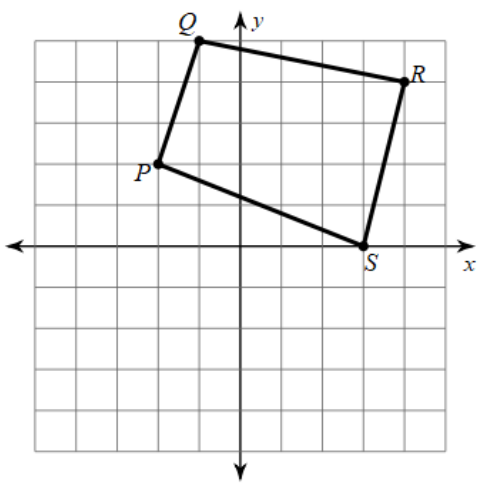




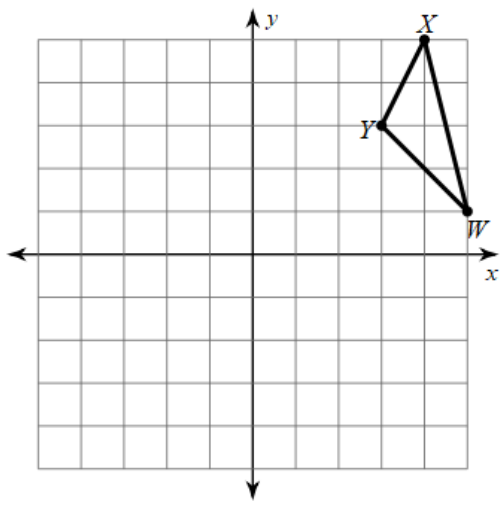
20 Transformations

Graph the given transformation

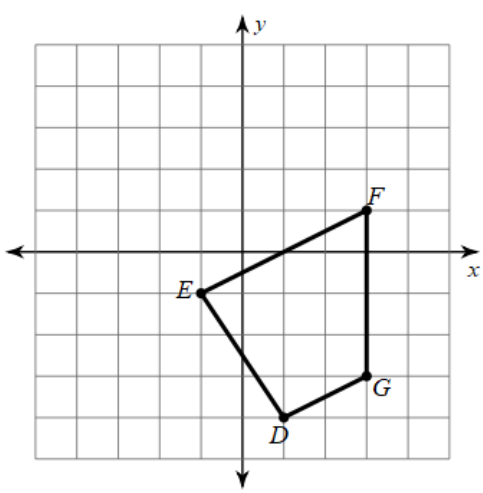
Translation: 2 units left and 4 units down



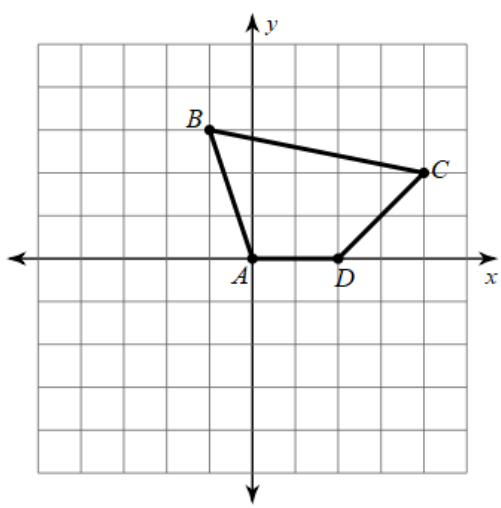
Translation: 4 units left



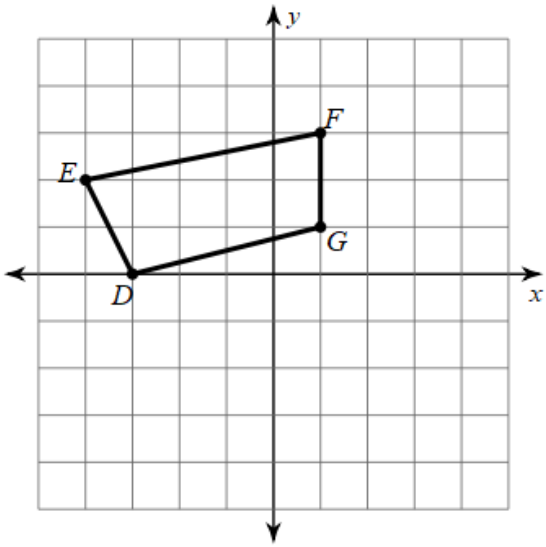
Rotation 90˚counterclockwise about the origin



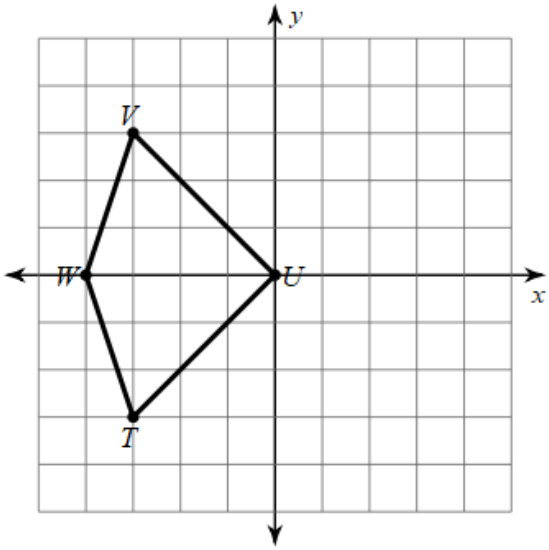
Rotation 180˚about the origin



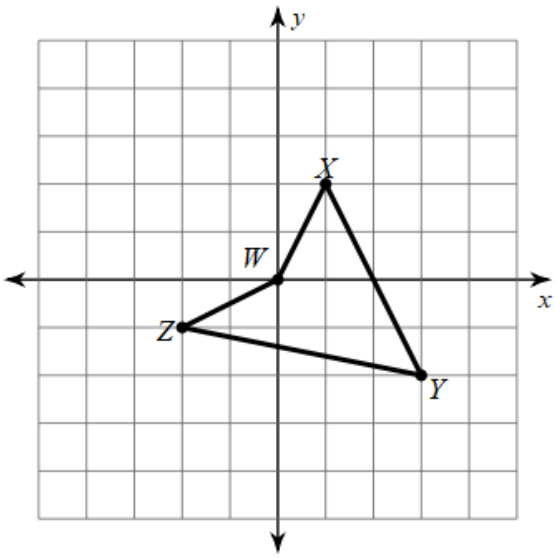
Reflection across the x-axis

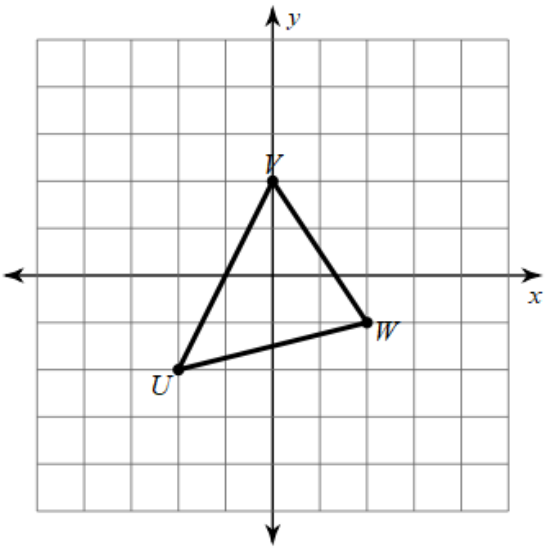


Reflection across the y-axis



Dilation of $\frac{3}{2}$ about the origin





Dilation of 2 about the origin
